- It is important to mention that the policy of National Volleyball Federation of Serbia & Montenegro was focused on production of quality players. The result with youth categories wasn't important at the first time of project and all our work was dedicated for the prospective players development. The results of the Senior National Team achieved during 7 last years are proven that on the basic level, in clubs and young categories of national teams, we have done good job.

Top players trained and developed :

Nikola Grbic, Vladimir Grbic, Ivan Miljkovic /Under my supervision *Miljkovic* has changed his team position and became one of the best hitter in the world/, *Goran Vujevic, Djula Mester, Andrija Geric, Slobodan Boskan, Vladimir Batez, Vasa Mijic* /started as libero in volleyball club *Budvanska Rivijera* and kept the same position in National Team./
